In order to respect the environment and the natural spaces crossed, it is strictly forbidden to leave waste (paper, plastic packaging, etc.) on the route.

Garbage cans will be available at each fuelling station and COLLECTION AREAS will be installed and marked at different points along the route. They must be used by the participants in the events. They will have to store the waste and packaging while waiting for the places indicated by the organization to get rid of it.

Art. 8 : DRONES

Participants are informed that on the day of the event, remotely piloted aircraft (drones) may be used for filming purposes.

Art. 10 : INSURANCE

As part of the organization of the race, AHS has taken out, in accordance with the legislation in force, an insurance covering the financial consequences of its civil liability, that of its employees and of all participants in the youth race. Regarding the liability of the participants, the intervention of this insurance for the latter is limited to the accidents that they could cause during the sporting event.

At the same time, participants are offered to take out insurance guaranteeing the payment of a capital in case of personal injury (death or permanent disability) due to an accident occurring on the race route. Compensation, depending on the damage and the limits of the guarantees chosen, occurs when the insured is the victim of an accident during his participation in the sports event. This insurance is optional but highly recommended. It may be taken out in addition to or in the absence of insurance of the same type held through a sports licence. The information notice and the registration form are available on the event website (Registration -> Supplementary insurance).

Finally, the organizer declines all responsibility in case of damage (theft, breakage, loss, etc.) suffered by the personal property of the participants. Participants will therefore not be able to turn against the organizer for any damage to their equipment.
